CURIOSITY

The uncertainty surrounding the origin of the word "Lambrusco" has given rise to two interpretations. According to the first one, the name derives from "labo" (take) and "ruscus" (which stings the palate) therefore referring to its being "abrupt", typical of young wines. According to the second interpretation, the most accredited, the name derives from "labrum" (field margin) and "ruscum" (spontaneous plant), thus referring to the spontaneity with which the plant grew marginally in the vineyard and the consequent casualty of its discovery.
