TEMPERATURE

8 - 10 °C

CURIOSITY

The Consortiums for the Conservation and Promotion of DOC recently decided to enhance the uniqueness of Lambrusco by launching a project for the creation of an *ad hoc* glass. After a series of tasting trials, made on 37 different types of cups, the historic Austrian company Riedel was chosen as winner, with a goblet that is distinguished by the long and thin ruby-stem and the large tulip shape.
